Your May Birthday Trivia

If you are lucky enough to be born in May, you share important birthdays with these folks, to name a few; Wynona Judd, Bob Hope, Melissa Etheridge, Janet Jackson, Wild Bill Hickock, John Wayne, Malcolm X, Sugar Ray Leonard, George Clooney, Florence Nightingale, Yogi Berra, John F. Kennedy, Adele. Our birthstone is the emerald, and it was Egyptian Queen Cleopatra's favorite gem. Our flower is the Lily of the Valley. While it's beautiful and smells so sweet, it is poisonous for humans and animals to ingest. Did you know blue jeans were invented in May of 1873? The Empire State Building opened May 1, 1931. May's full moon is called the Flower Moon. Aptly named by the Algonquin people because flowers spring up all over in May!

Happy Birthday and May the Fourth be With You!

Memorial Day- May 29,2023

A day dedicated to the remembrance of the fallen soldier. General John A. Logan, of the Grand Army of the Republic, stated, "The 30th of May, 1868, is designated for the purpose of strewing with flowers, or otherwise decorating the graves of comrades who died in defense of their country during the late rebellion, and whose bodies now lie in almost every city, village, and hamlet churchyard in the land..." after the end of the civil war where 620,000 soldiers gave their lives in those 4 years. In 1968 the Uniform Holidays Bill was passed, which changed the day Memorial Day is recognized to the last Monday in May, regardless of the date.

Sewer and garbage must go through Riverside City Hall whether you have Riverside Special Utilities District water or Shorewood Forest water. If you need a trash cart or a small dumpster to clean out the garage or a roll-off dumpster for bigger projects, call us and ask. We can get it scheduled for you.

With Summer comes summer storms and that can mean power outages. Sewer pumps and grinder stations may not work if there is no power. So be prepared for those storms by keeping your bathtub filled with water for flushing toilets. Make sure your sewer clean outs have their covers on them to avoid rainwater surges into the sewer system. Have plenty of drinking water and medications on hand. Have plenty of batteries for lanterns or flashlights? Bring in or secure outdoor items that could become projectiles. Also make sure your vehicles stay gassed up. We are a team. Let's help each other where we can. If I / we can do anything reach out.

Can you teach an old dog new tricks?

In a recent conversation about learning new things and keeping up with the changes life throws at us, I researched teaching an old dog new tricks. Dispelling the myth. Like most adages, this one has a following of folks who truly believe that old dogs cannot be taught new things, but this is not the case. Old dogs can learn new tricks. Dogs are innately good learners. Humans however! Part of the brain—the amygdala—interprets change as a threat and releases the hormones for fear, fight, or flight. Your body is actually protecting you from change. That is why so many people in an organization, when presented with a new initiative or idea—even a good one, with tons of benefits—will resist it.

A little Grace goes a long way. Why are we so willing to give it to others and not to ourselves?
